

GREEN
Greek Environmental & Energy Network

Chairman's Message

Since **GREEN**'s establishment, we have been focused on creating an exemplary leading power company with financial prosperity.

Our goals are high but achievable, as we have committed ourselves to delivering superior quality services according to international standards.

GREEN is a Greek company consisting of young people with commercial and technical expertise in the energy market. We have expanded our business activities in Greece and abroad, structuring a successful company with an outstanding performance.

Our strategic plan, includes investments in renewable energy sources. Meanwhile, in our daily procedures we have adopted environmentally sustainable practices setting the foundation for a healthier environment.

Our vision is to change the world of energy by designing new products and offering added-value services, aiming to maximize the company's as well as the consumer's benefits, while minimize our environmental footprint.

Vyron Vasileiadis

Chairman

Who we are

We are a dynamic, fast growing energy company that has come a long way in a very short period of time

Greek Environmental & Energy Network – **GREEN** is one of the first private companies trading power in Greece. GREEN is a member of Vassiliades Group, which is active in Waste Management, Recycling & Energy Sectors.

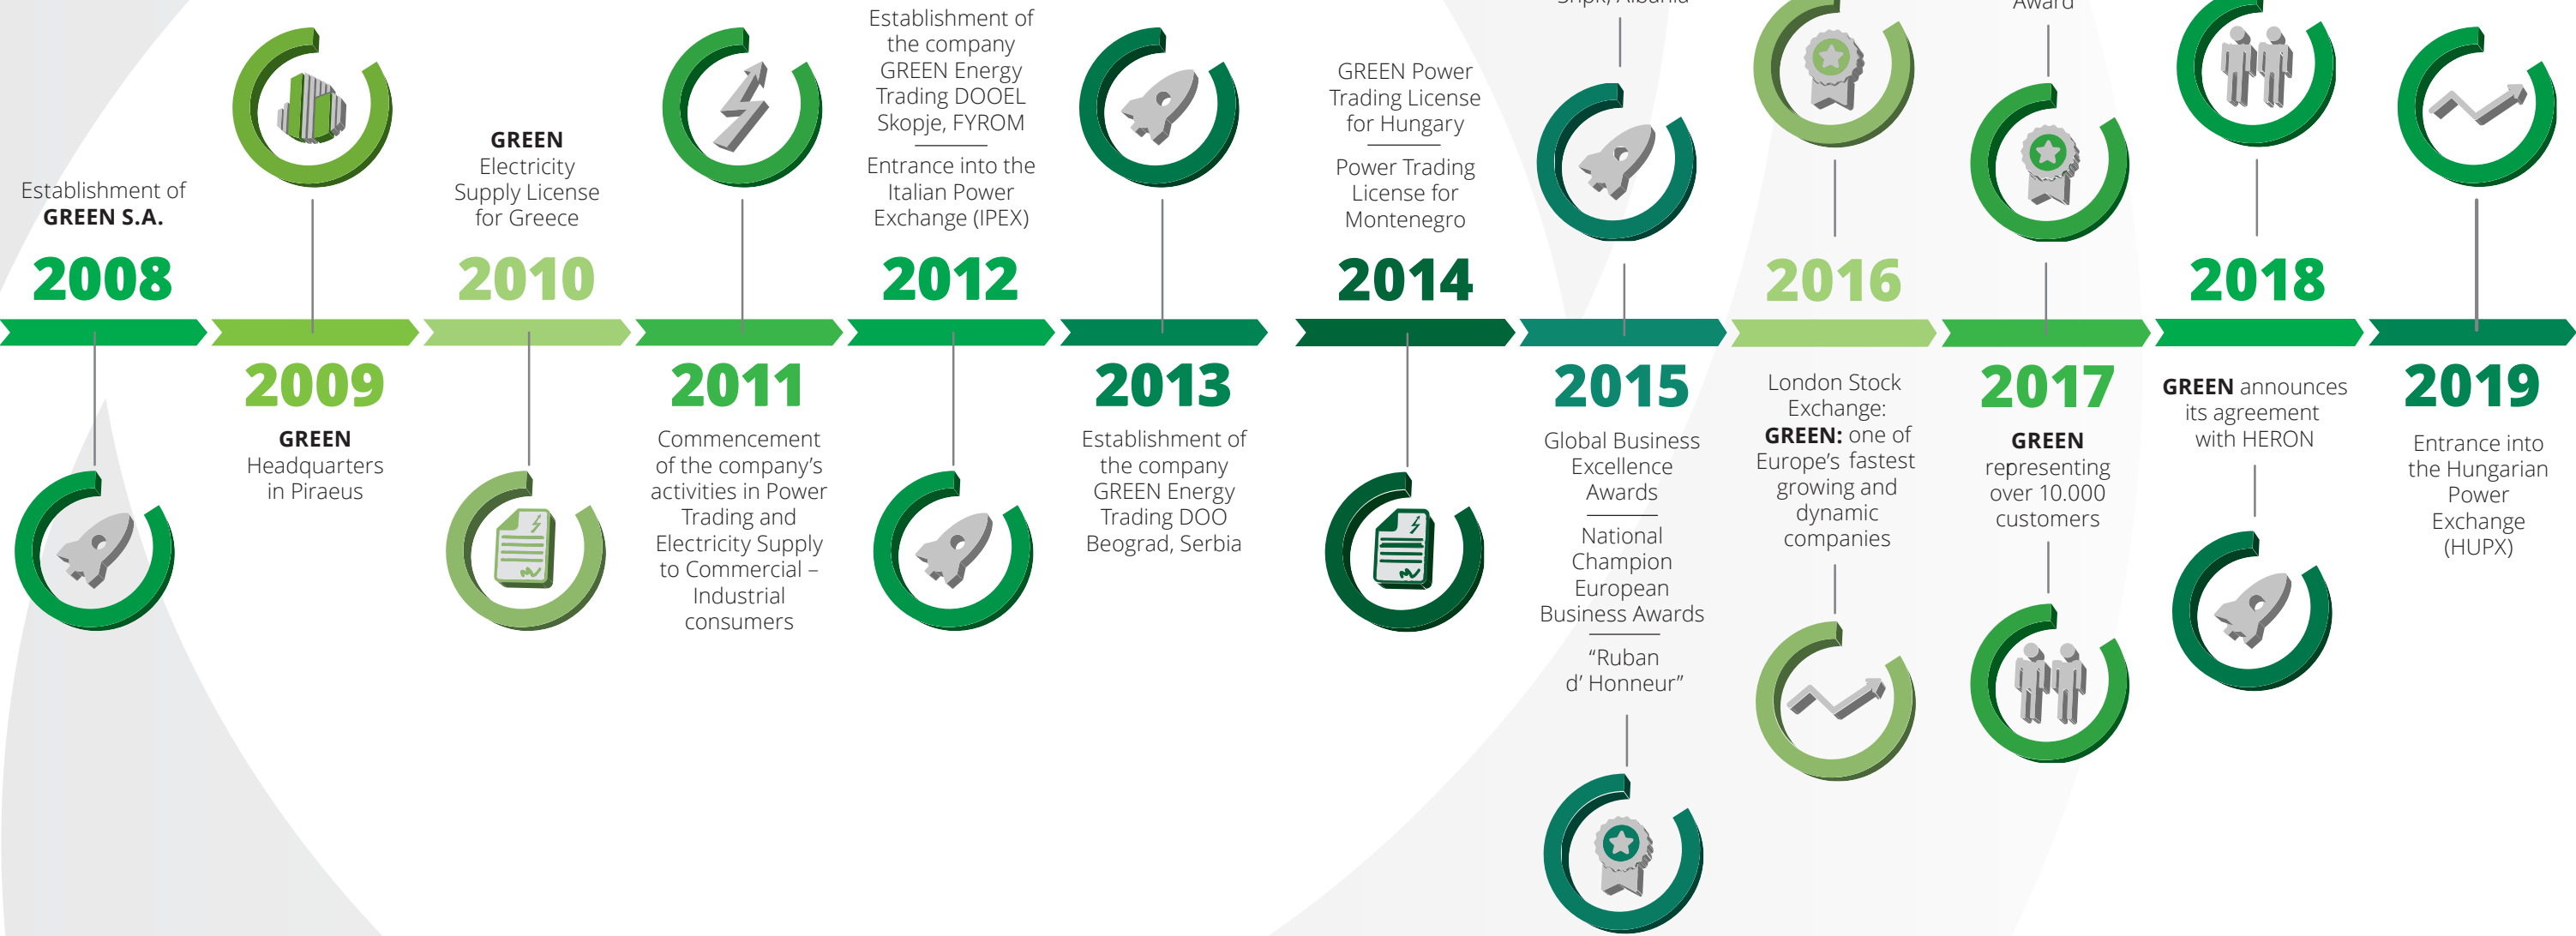

Since its establishment in 2008, **GREEN** has grown rapidly, playing a major role in the energy sector of our country and beyond borders.

GREEN is engaged in Power Trading in Southeastern Europe, being present in more than 15 regional power markets.

Furthermore, **GREEN** invests in Renewables' Projects in Greece as well as developing Natural Gas & Emissions Trading Desks.

Our History

What we do

Strong presence beyond borders

GREEN is trading power all across Southeastern Europe. In recent years, our company has achieved considerable growth, both in terms of volumes that GREEN trades as well as the overall business development in regional power trading sector.

GREEN trades electricity in Greece, Italy, Bulgaria, Skopje (FYROM), Albania, Turkey, Serbia, Montenegro, Bosnia, Hungary, Romania and Slovenia.

Through the establishment of GREEN Energy Trading DOOEL Skopje, GREEN Energy Trading DOO Beograd and GREEN Energy Trading Albania ShpK, GREEN created a network of power trading entities to expand its activity in the SEE energy markets.

On a daily basis we are trading power in the Hellenic Electricity Market Operator (LAGIE), the Italian Power Exchange (IPEX), the Hungarian Power Exchange (HUPX), the Serbian Power Exchange (SEEPEx), the Bulgarian Power Exchange (IBEX) and the Slovenian Power Exchange (BSP).

GREEN is registered at South East Europe Common Allocation Office (SEE CAO) as well as Joint Allocation Office (JAO) and participates in daily, monthly and yearly auctions for the allocation of Cross Border Capacities.

Looking into our future development, we focus on expanding GREEN's network, increase GREEN's partnerships, while working in the most reliable and flexible way to benefit our customers & suppliers.

Corporate Social Responsibility

We secure our future success by investing in community growth and environmental protection

In **GREEN** CSR is part of our commitment to establishing sustainable communities. During nearly a decade of **GREEN**'s operation, we participated in various programs and causes, investing in active and healthy living initiatives, water stewardship programs, children's welfare and education and humanitarian and disaster relief programs. Being aware of our responsibility towards human and the environment, we support the society as an integral part of our strategic planning. In **GREEN**, we encourage individual environmental consciousness, protecting the community and reducing our environmental footprint.

Focused on people & the environment

We aim to a better society and a cleaner environment for all of us.

- Collaborating with Non-Governmental Organizations (NGOs) and institutions
- Participating in recycling programs
- Organizing volunteer actions by involving our corporate staff into the cleaning of beaches and forests
- Sponsoring agencies working towards the reinforcement of culture, sports and the environment
- Supporting young people in acquiring adequate education and implementing their ideas
- Creating new prospects for young people by providing employment opportunities
- Funding university and research programs
- Contributing to the education of our youths that will create our country's future social and environmental sustainability.

Flexibility Reliability Consistency

Flexibility: a dynamic & responsive structure

GREEN is ready to meet the needs of its clients 24/7, contributing to their efforts for efficient energy management. Our custom-designed trading software system enables **GREEN** to quickly adapt the changing market conditions and meet every challenge.

Reliability: power to deliver

Based on our strong financials and continuous business development, **GREEN** is always ready to deliver whatever is agreed with our partners. We guarantee competitive prices, transparent pricing policy as well as fast financial settlement.

Consistency: we are committed to people and the environment.

Our consistency is a fundamental element that builds our clientele's loyalty. Furthermore, **GREEN**'s ongoing effort to protect the environment and support the society, leads us to financial growth, securing a better future for all of us.
